

GEORGE BUSH

April 2016

Barbara and I send greetings and congratulations to the members of the Order of the Founders and Patriots of America on the occasion of the Order's 120th General Court.

Lest we take the blessings of liberty for granted, it is imperative that we as Americans pause from time-to-time to recall the sacrifices and bedrock principles by which this Nation was conceived, launched and preserved. The Order's selfless and enduring efforts to help educate succeeding generations about our shared history — and why it matters greatly today — help spread awareness and a fuller understanding of our rights and duties as citizens. There is not a more important mission today.

Barbara and I join in thanking each member of the Order for your commitment to help your fellow Americans understand the true greatness of our country. Keep up the good work!

Best wishes for a grand celebration.

Sincerely,

A handwritten signature in black ink, appearing to read "G. Bush", written in a cursive style.
